

THE GOOD EARTH: CREATION AND MINISTRY IN AN ECOLOGICAL AGE

2015 HENDERSON SUMMER LEADERSHIP CONFERENCE

Join Pittsburgh Seminary, **Norman Wirzba**, and **Fred Bahnson** on **June 7-10, 2015**, for the 74th annual **Henderson Summer Leadership Conference**. This year's event will focus on **"The Good Earth: Creation and Ministry in an Ecological Age."** In addition to keynote presentations from Drs. Wirzba and Bahnson, guests will have the opportunity to participate in a variety of workshops and conversations with community leaders on themes relevant to sustainability and stewardship of the earth. There will be a *Farm to Table* Banquet and optional field trips to sites related to the conference's theme.

FREE PUBLIC LECTURE DURING THE CONFERENCE

On **Monday, June 8, 2015, at 4:30 p.m.**, our keynote speakers will present the J. Hubert Henderson Lecture on Church and Ministry entitled, **"From Nature to Creation: What Difference Does it Make?"** In this conversation Bahnson and Wirzba explore how the way we treat the natural world has everything to do with how we think about it. Too often we take the world for granted. Discovering the world *as God's creation* opens the possibility for a more beautiful, healthy, and just life.

This lecture is free and open to the public. **Registration for the lecture only** is greatly appreciated so that we may plan accordingly to accommodate our guests. *Those attending the Conference do not need to register separately for the lecture.*

OTHER KEYNOTE PRESENTATION TOPICS

Monday 10:30 a.m.: **"For God So Loved the World: Setting A Theological Context"** In this presentation, Wirzba will present a biblical and theological framework for thinking about and loving creation. The wide scope of God's love is explored so that people can appreciate the cosmic dimensions of God's redemptive work.

Monday 1:30 p.m.: **"Sons of Noah: Art, Faith, and Activism for the New Diluvian Age"** We have now entered "decade zero" -- meaning we have only a decade to stop our planet from warming more than 2 degrees Celcius. Living in such a moment, Bahnson will address questions such as, Where do we find beauty and hope? How can art change the way we care for this world in which God will someday come to dwell?

Tuesday 10:30 a.m.: **"Reconciliation Through Food and Farming"** In this conversation Wirzba and Bahnson will explore how food and farming systems are an excellent window for understanding and addressing the healing of earth and our human communities.
